### \*\*\* CLASS DESCRIPTION \*\*\*

**Mathmagic:** an easy and fun way for students to understand mathematical concepts while doing fun activities that cover a wide range of topics, such as adding, subtracting, multiplication and much more. The activities will help students to be able to critically think and become problem solvers as well as build confidence on their mathematical skills.

**Martial Arts:** An introductory experience to the world of martial arts, in which students will learn the basics of the Korean martial art of Tae Kwon Do. Students will learn and develop various techniques revolving around blocking, punching, kicking and self-defense techniques. Participants will also enhance their strength, flexibility, conditioning and even learn to break boards!

**Brain Games/ Chess:** Fun, dynamic, Interactive lessons bring chess to life. All Ages & Skill Levels! Classes divided by age and skill level. Chess helps kids do better in school by exercising and improving focus, memory, patience, pattern recognition, creativity, and critical thinking.

**Cooking:** Students will have a culinary adventure as apprentice cooks/junior chefs. They will make everything from healthy rainbow smoothies to five ingredient brownies. They will learn how to cut vegetables (with using dull plastic knives of course), make ice cream in a bag and even learn some superfood hacks and tricks.

**Hollywood Mystery:** It's the biggest night in Hollywood, The Golden Trophy Awards! You are nominated for the top prize, the Golden Trophy worth \$1 million in gold, but someone is up to something at the awards show.... DUN DUN DUN! Join us for this fun celebrity mystery where you must help to solve who committed a crime, even if it's you!

**Outside Activities:** Coach George, he will be doing multi sports and all the kids to play on the playground

**Icreate:** is a class that teaches students ceramic painting clay hand building, water coloring, and canvas painting techniques. Art projects will be linked to major holidays and events to create meaningful projects.

**Fun with words:** Not the typical English class. Fun with words is a fun an energetic way of teaching the fundamentals of writing. Students will learn multiple topics from writing to reading comprehension skills while doing fun activities that challenge them to become better writers. Every activity is filled with English fundamentals and skills that they can use the rest of their academic careers.

**Hawk Fitness:** Students will learn Body weight movements (squatting, lunging, pushups, balance, mobility and flexibility). Teamwork activities like partner rescue, team problem solving with an active twist, and how having a support system/ buddy when it comes to physical activity can make them more successful. There will be even fun games!

**For the Love of Music:** A journey through the realms of music, getting familiar with different styles and events, observing and participating. Getting excited and experiencing some of the gems in music - having great fun listening, singing, & dancing.

**Robotics:** Fun, engaging, hands-on and educational program for kids who are starting to build robots. The idea is to make them explore their skills on thinking and building the products in their way at their own pace at this age

**Craft Your World:** Craft Your World is a program seeking to teach students handcrafts, starting with fiber crafts such as crochet! Our founder has developed her curriculum to help students improve manual dexterity, planning, and researching projects! The program is designed to teach students to think more critically about the world around them. Students should never feel "bored" again, when they can see a piece of string and realize the countless things it can become.

**Hawk Theatre:** Students will work with Trinity artists on scene work, engaging the face voice and body through the cold reading process.

**Yoga:** Encourage your child's inner light to shine! Come join us as we stretch, play games and relax to unite our bodies and minds!

**Life Skills:** Life Skills provides an opportunity for kids to learn and practice activities of skills that we utilize day to day. Activities include (but are not limited to), learning to: read a recipe, measure ingredients, gift wrap presents, write thank you notes/invitations, sort and fold laundry, pack lunches, sign their name in cursive, use simple tools, communicate more effectively, work in teams, change batteries, make knots, tie shoes, manage money, change a diaper, and more.

**Hip Hop :** Dance promotes creativity, improves self-esteem, encourages socialization and an active lifestyle and...it is simply...FUN!

**Medieval Mansion Mystery:** You live in the royal kingdom of LaDeeDa and just a few hours ago the Princess was captured! The king has hired a professional dragon slayer to come and rescue the princess, and you have been invited to the mansion to welcome him. Join us for this mystery game where you must figure out who done it, even if it's you!
